MARCY UTILITY BENCHES (ADJUSTABLE BENCH)

CODE: MSB670

FEATURES

- The adjustable utility bench from Marcy is ideal for working out and building up the muscles in your chest, shoulders, back, abs, and more. It's a great unit for a full-body workout, whether you're at home or at the gym.
- This utility bench is made from premium-quality materials. It has a powder-coated steel frame with high-density foam in black and white upholstery. This keeps your body secured and supported during light or intense workouts alike.
- The back pad is highly adjustable and can be set to different angles to help perform chest exercises such as incline, military, decline, and flat presses. The tilting seat can be adjusted to 3 positions to fit any user.
- Not only is this equipment highly adjustable, it's adaptable as well! Attach it to other squat racks, half cages, and Smith machines and get the most out of your workout.

Maximum Weight Capacity: 272KG.

Assembled Dimensions: 110.5cm (L) x 63.5cm (W) x 120.7cm (H).
